### **REASONS FOR ALLOWANCE**

3. The following is an examiner's statements of reason for allowance:

Claims 21, 26-28 and 33-34 are allowable over the prior art of record.

The examiner has found that the prior art of record does not appear to teach or suggest or render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims. The prior art of record fails to teach or suggest a method and system for parsing in a distributed directory-enable application environment using an extensible markup language (XML) application program interface including a class factory wherein defaulting the object to a document object model during instantiation in the class factory if the system service is not accessible, determining if there is a suitable document object model, and defaulting the object to a highest available class during instantiation in the class factory if there is no suitable document object model as set forth in the specification and recited in the independent claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
